July 26, 2007

Dear Gary,

Just a short note to let you know how much of an improvement the new sound system has made in our parish. Upon arriving at the parish the only sound "system" in place was merely a microphone at the ambo with two speakers. At the altar and chair the priest was on his own to project his voice to the entire parish. The new system allows the faithful to hear all the elements of the Mass with a beautiful clarity throughout the entire church. One does not need to speak above an ordinary tone and the system is extremely easy to operate. Many have also commented on how much better they can hear the choir with their own speakers operating from the rear of the church. Thank you for a job well done.

Fr Ron Cyktor, Jr
